

# Student Questionnaire on the use of Information and Communication Technology (ICT)

Your school is participating in the Erasmus+ Programme: " Effective e-Learning System Based on Digital Competences"

This questionnaire is focusing on Digital Literacy and the use of ICT by students in each partner school (mainly focused on the frequency, quality and diversity of ICT use in teaching and learning practices).

Read and answer each question carefully and ask for help if there is anything you don't understand or if you are not sure how to respond. Answering this questionnaire should require/take you about 20 minutes.

All responses/answers are anonymous and will be treated in strict confidence.

Thank you very much for your collaboration. Your input is really important for our study.
